Shared Analytical Services Laboratory (SASL)

Laboratory Intoduction and Safety Walk-Through

Client Name: _____ Date: _____

Advisor: _____ Phone: _____

Home Department: _____ Campus Box: _____

Project: _____

Evacuation Plan: _____

Laboratory Access: _____

General Lab Tour: _____

Personal Protective Equipment:

- Routes of Exposure _____
- Clothing _____
- Eye Protection _____
- Face Shield _____
- Blast Shield _____
- Lab Coat _____
- Gloves _____
  - Thick Rubber _____
  - Thermal _____
  - Thin Plastic _____

Right-to-Know:

- Phone / Numbers _____
- MSDSs _____
- Safety Book _____
- Hygiene Plan _____

Chemical Hygiene:

- Storage _____
- Labeling _____
- Hoods _____
- Ordering _____
- Disposal _____
- Adoption _____

Hazard Response Equipment:

- Shower _____
- Eye Wash Station _____
- Fire Extinguishers
  - Carbon Dioxide _____
  - Dry Powder _____
  - Active Metal _____
- Spill Control Station _____
- Fire Blanket _____
- Broken Glass Waste _____
- Gas Shutoff _____

Behavior:

- Unauthorized Work _____
- Radios / Headphones _____
- Eating / Drinking _____
- Working alone _____
- Playing _____
- Housekeeping _____
- Mouth Pipetting _____

Additional Checks:	**Required**	**Not Required**
Compressed Gases	_____	_____
Cryogens	_____	_____
Part. Hazard. Comp.	_____	_____
Biological	_____	_____
Radiation	_____	_____
Electrical	_____	_____
Machine Shop	_____	_____

By initialling the above spaces, you are agreeing that the indicated information has been pointed out and described to you. This Laboratory Safety Briefing must be certified before working in the SASL Laboratory, and recertified annually. The signed originals will be filed in the SASL Laboratory "Right-to-Know" Training file and a copy should be retained by the user.
